

### Mission/Values statement

Leap into a pool of learning!

At Sennen School we aim to provide an education that will equip our pupils for a lifetime of learning. As well as highly valuing academic achievement, we passionately believe in developing the core learning skills of resilience, respect, reflectiveness, resourcefulness and teamwork. These virtues are instilled and reinforced in all aspects of school life as our children thrive in a supportive community environment. We strongly value children's individuality and encourage them to pursue their interests; celebrating their achievements in both school and through extra-curricular activities. We make the most of our wonderful locality to get the children out in the environment, learning through real life experiences. With learning behind every door and fun around every corner, children can immerse themselves in a pool of learning at Sennen.

### Curriculum statement

INTENT	IMPLEMENTATION	IMPACT
What we intend to achieve through our curriculum	How we will deliver our curriculum	How we will measure the effectiveness of our curriculum
We aim to provide children with a well-rounded and ambitious curriculum. High academic standards and expectations run alongside creativity, inspiration and imagination. Through the school's core learning behaviours of Respect, Resilience, Resourcefulness, Reflectiveness and Teamwork; children learn to: challenge themselves; demonstrate excellence; care for themselves and their community and have fun. Our curriculum draws upon the natural and historical resources in our community and the children's experience to make it relevant and inspiring for them.	Throughout all curriculum delivery at Sennen, run our core learning behaviours. These are taught and developed alongside understanding and mastery of the primary curriculum. We believe that developing the children's ability to learn is crucial in order prepare them for secondary school and beyond. Clear effective methodologies devised by teaching staff, drawing on research and best practice from many areas, enable high quality delivery of core subjects. Staff work hard to adapt and personalise the curriculum to meet the needs of individuals, ensuring that each learner can work at their cutting edge. Cross curricular planning is used to fully immerse the children in a subject and give purpose to learning. Children have the opportunity to experience a wide range of well planned, practical activities across all subjects. The curriculum will be delivered in an eclectic mix of locations designed to inspire and excite.	Rigorous assessment methods are in place for the monitoring of children's progress across the core curriculum. The outcomes of these are used to ensure that the delivery and content of the curriculum is tailored to individual children's needs. Our aim is to empower children academically by making them aware firstly of their strengths, then their development points, with clear pathways to success explained for them. Most importantly however, our success will be measured in children's attitudes to learning and their well-being, their ability to discuss their learning with positivity and confidence and the breadth of opportunities that have been afforded to them. We seek the views of pupils, staff and parents to inform our curriculum delivery and help us to reach our aims. Our curriculum aims to help children prepare for a lifetime of learning, underpinned by enjoyment, excellence and an understanding of themselves.
